Marc Darenz Masarate

Civil Construction Design (Advanced Diploma, February 2026) | AutoCAD, Civil 3D, Revit

Melton VIC | 0478 764 077 | macdarenz@gmail.com | https://macdarenz-droid.github.io/Portfolio

Full working rights in Australia (Subclass 485 visa), no sponsorship needed
Full Victorian driver's licence and own reliable transport | White Card (Construction Induction)

Profile

Civil design graduate with an Advanced Diploma of Civil Construction Design, completed in Australia in February 2026, and a Bachelor of Science in Civil Engineering. Designed and documented road geometry, earthworks, pavement systems and stormwater drainage, and prepared and reviewed technical drawings in AutoCAD and Civil 3D, applying Australian Standards. Site experience reviewing structural and architectural drawings and checking work against project requirements.

Design and drafting

Advanced Diploma of Civil Construction Design (RII60520)
Albright Institute of Business and Language, Australia | Feb 2024 to Feb 2026

- Designed and documented road geometry, earthworks, pavement systems and stormwater drainage, and studied infrastructure design principles
- Prepared and reviewed technical drawings in AutoCAD and Civil 3D, applying Australian Standards and construction requirements
- Gained a practical understanding of design coordination, constructability, technical reporting and how civil works move from concept to documentation
- Lodged Before You Dig Australia (formerly DBYD) enquiries, followed its procedures, and designed around existing services and site constraints

Software: AutoCAD 2D/3D, Civil 3D, Revit, Microsoft Office, Google Workspace

Standards used in coursework: Austroads road and pavement guides, AS 1742.14, AS 1726, AS 1289, AS 4100, AS/NZS 1170, ISO 31000

Work history

Console Operator (casual)
bp service station, Melbourne VIC | May 2024 to present

- Customer service and console operation at a service station, held alongside full-time study in the Advanced Diploma

Field Engineer
Grand Travaux, Philippines | Sep 2019 to Feb 2020

- Worked on residential subdivision finishing works, delivered within the three-month construction schedule
- Assisted with site inspections, daily coordination and quality checks to keep work compliant and on time
- Tracked procurement and materials, and prepared site reports, material records and progress reports
- Coordinated with engineers, subcontractors and suppliers to sort out site issues and keep work moving

Project-in-Charge Engineer (Entry Level)
JustBuilt, Philippines | Apr 2019 to Sep 2019

- Helped deliver a community hall renovation, finished within the six-month construction program
- Coordinated 10 to 15 workers each day, passed on work priorities and tracked progress to help the site run safely and efficiently
- Reviewed structural and architectural drawings and checked work against project requirements to cut down on errors and rework
- Carried out site inspections, safety checks and quality monitoring, and escalated issues that needed clarification or corrective action
- Kept clients and other stakeholders up to date on progress throughout the job

Coursework methods and portfolio drawings

Methods used in coursework: options analysis, hand calculations (equilibrium, method of joints), cost estimates and bills of quantities, risk registers, Before You Dig Australia enquiries

Drawings in the online portfolio

- Typical cross-section of a two-lane road with shoulders, kerbs and drainage (AutoCAD, Advanced Diploma coursework)
- Pedestrian Warren truss bridge modelled in 3D in Revit
- Footing and column modelled in 3D in AutoCAD

Additional experience

Technical Support Representative, Microsoft Software
Concentrix, Philippines | Mar 2020 to Apr 2022

- Resolved 40 to 60 technical cases a day, troubleshooting step by step and keeping accurate case notes
- Explained technical issues to customers in plain terms and worked with internal teams to fix complex problems

Education

Advanced Diploma of Civil Construction Design (RII60520)
Albright Institute of Business and Language, Australia | Feb 2024 to Feb 2026

Bachelor of Science in Civil Engineering (BSCE)
Divine Word College of Legazpi, Philippines | 2014 to 2019

- Studied civil engineering design, construction methods, structural principles, hydraulics, surveying and project delivery

Eligibility and licences

- Subclass 485 visa: full working rights until December 2027
- Full Victorian driver's licence and own reliable transport
- White Card (Construction Induction)
- AFP National Police Check certificate issued in March 2026
- Working with Children Check
- Willing to do pre-employment medical and drug and alcohol tests
- Available for site, office and regional project work
- Available for FIFO work and project-site travel
- Can start two weeks after an offer
- Will relocate anywhere in Australia

Referees available on request.
