Re: Trainee Civil Drafter - Coffs Harbour

I would like to apply for the Trainee Civil Drafter position in your Coffs Harbour office. I completed an Advanced Diploma of Civil Construction Design in Australia in February 2026, and I am looking for a drafting role where I can build commercial experience under people who do this work every day. Your advertisement describes extensive on-the-job training and mentoring, which is exactly the start I am after.

My diploma covered road geometry, earthworks, pavement systems and stormwater drainage. I prepared and reviewed technical drawings in AutoCAD and Civil 3D while applying Australian Standards and construction requirements, and I applied DBYD procedures and considered existing services and site constraints in my design work. I want to be clear that this drafting experience is from coursework rather than a commercial office, so I would be starting as a trainee in the real sense of the word.

What I bring alongside it is time on site. As a Project-in-Charge Engineer at JustBuilt in the Philippines I supported a community hall renovation, coordinating the daily activities of 10 to 15 workers and reviewing structural and architectural drawings against project requirements to help minimise errors and rework. As a Field Engineer at Grand Travaux I assisted with inspections and quality checks on residential subdivision finishing works and prepared site, material and progress records. That experience taught me what happens when a drawing is unclear or does not match what is buildable, and I think it will make me a more useful drafter than my drafting hours alone would suggest.

Northrop's work across civil and structural in the same office appeals to me, as does land subdivision, which is close to the subdivision finishing works I worked on. I also understand Northrop is employee-owned, and the idea of learning somewhere that people choose to stay and build a career is genuinely part of the attraction.

I currently hold a subclass 485 visa with full working rights in Australia until December 2027. I am based in Melton, Victoria, and I am open to relocating to Coffs Harbour for the right opportunity - I would welcome the chance to discuss what that would involve. I also hold an Australian driver's licence, a White Card and a Working with Children Check.

My resume is attached. I would appreciate the opportunity to discuss the role with you.

Yours sincerely,

Marc Darenz Masarate
