

MARC DARENZ MASARATE

JUNIOR CIVIL ENGINEER | SITE COORDINATION

Melton, VIC 3337 | 0478 764 077 | macdarenz@gmail.com

Open to relocation discussions for Albany and regional site opportunities

PROFESSIONAL PROFILE

Civil Engineering graduate with an Australian Advanced Diploma of Civil Construction Design and practical construction experience in the Philippines. Experienced in coordinating daily site activities, reviewing structural and architectural drawings, carrying out inspections and quality checks, and maintaining progress and material records. Comfortable communicating with workers, engineers, subcontractors, suppliers and clients. Seeking a junior role supporting site supervision and construction delivery, with guidance from experienced project leaders.

KEY CAPABILITIES

- **Site coordination:** Daily work planning, workforce coordination, progress monitoring, site inspections, quality checks and safety observations.
- **Project support:** Procurement tracking, material records, technical reports, drawing review and construction issue identification.
- **Communication:** Clear progress updates and coordination with engineers, subcontractors, suppliers, clients and site personnel.
- **Civil design education:** Earthworks, road geometry, pavement design, stormwater drainage and civil documentation.
- **Software:** AutoCAD 2D/3D, Civil 3D, Revit, Microsoft Office and Google Workspace.

RELEVANT EXPERIENCE

PROJECT-IN-CHARGE ENGINEER (ENTRY LEVEL)

JustBuilt, Philippines | April 2019 - September 2019

- Supported a community hall renovation valued at approximately PHP 1 million (AUD 22,000+), completed within a six-month construction program.
- Coordinated daily activities for 10-15 workers, communicated priorities and monitored progress to support safe, efficient site operations.
- Reviewed structural and architectural drawings and checked work against project requirements, helping minimise errors and rework.
- Conducted site inspections, safety checks and quality monitoring, escalating issues requiring clarification or corrective action.
- Communicated with clients and project stakeholders and maintained clear progress updates throughout delivery.

FIELD ENGINEER

Grand Travaux, Philippines | September 2019 - February 2020

- Supported residential subdivision finishing works valued at approximately PHP 1.2 million (AUD 27,000+), delivered within a three-month construction schedule.
- Assisted with site inspections, daily construction coordination and quality checks to support compliant and timely work.
- Tracked procurement and materials and prepared site reports, material records and progress documentation.
- Coordinated with engineers, subcontractors and suppliers to resolve site issues and maintain continuity of work.

MARC DARENZ MASARATE

EDUCATION AND CIVIL DESIGN PROJECTS

ADVANCED DIPLOMA OF CIVIL CONSTRUCTION DESIGN

Albright Institute of Business and Language, Australia

December 2024 - February 2026

- Completed civil design and documentation work covering road geometry, earthworks, pavement systems, stormwater drainage and infrastructure design principles.
- Prepared and reviewed technical drawings using AutoCAD and Civil 3D while applying Australian Standards and construction requirements.
- Developed practical understanding of design coordination, constructability, technical reporting and the progression of civil works from concept to documentation.
- Applied DBYD procedures and considered existing services and site constraints when developing civil design solutions.

BACHELOR OF SCIENCE IN CIVIL ENGINEERING

Divine Word College of Legazpi, Philippines | 2014 - 2019

Built a broad technical foundation in civil engineering design, construction methods, structural principles, hydraulics, surveying and project delivery.

ADDITIONAL PROFESSIONAL EXPERIENCE

TECHNICAL SUPPORT REPRESENTATIVE - MICROSOFT SOFTWARE

Concentrix, Philippines | March 2020 - April 2022

- Resolved 40-60 technical cases daily through structured troubleshooting, analytical problem-solving and accurate case documentation.
- Explained technical information clearly to customers and coordinated with internal teams to resolve complex issues efficiently.

LICENCES AND WORK ELIGIBILITY

- Australian driver's licence and own reliable transport.
- White Card (Construction Induction) and Working with Children Check.
- Subclass 485 visa - full working rights until December 2027.
- Available for site, office and regional project work, including FIFO and project-site travel across Australia; open to discussing relocation to Albany.

PROFESSIONAL STRENGTHS

Clear communicator; organised and dependable; practical problem-solver; strong attention to detail; comfortable working independently and collaboratively; open to mentoring and ongoing professional development.
