

MARC DARENZ MASARATE

Civil Engineering Graduate | Civil Design and Drafting Documentation

Melton, VIC 3337 | 0478 764 077 | macdarenz@gmail.com | Australian driver's licence and own transport

PROFESSIONAL PROFILE

Civil engineering graduate with an Australian Advanced Diploma of Civil Construction Design, covering road geometry, earthworks, pavement systems and stormwater drainage. Prepared and reviewed technical drawings using AutoCAD and Civil 3D during coursework while applying Australian Standards and construction requirements, and applied DBYD procedures and existing-service constraints to design work. This drafting and documentation experience is academic rather than commercial, and is supported by practical site experience reviewing structural and architectural drawings and checking constructed work against project requirements. Seeking a junior or trainee drafting role with training and supervision.

KEY CAPABILITIES

Civil design study	Earthworks, road geometry, pavement design, stormwater drainage and infrastructure design principles
Drafting software	AutoCAD 2D/3D, Civil 3D and Revit (used during Advanced Diploma coursework, not commercial production work)
Standards and procedures	Australian Standards and construction requirements; DBYD procedures and existing-service and site constraints
Drawing review	Reviewing structural and architectural drawings and checking work against project requirements on site
Documentation	Technical reporting, site reports, progress records and material records
Constructability	Design coordination and the progression of civil works from concept to documentation
General software	Microsoft Office and Google Workspace

CIVIL DESIGN EDUCATION AND PROJECTS

Advanced Diploma of Civil Construction Design

Albright Institute of Business and Language, Australia | December 2024 - February 2026

- Completed civil design and documentation work covering road geometry, earthworks, pavement systems, stormwater drainage and infrastructure design principles.
- Prepared and reviewed technical drawings using AutoCAD and Civil 3D while applying Australian Standards and construction requirements.
- Developed practical understanding of design coordination, constructability, technical reporting and the progression of civil works from concept to documentation.
- Applied DBYD procedures and considered existing services and site constraints when developing civil design solutions.

Bachelor of Science in Civil Engineering

Divine Word College of Legazpi, Philippines | 2014 - 2019

- Built a broad technical foundation in civil engineering design, construction methods, structural principles, hydraulics, surveying and project delivery.

RELEVANT EXPERIENCE

Project-in-Charge Engineer (Entry Level)

JustBuilt, Philippines | April 2019 - September 2019

- Supported delivery of a community hall renovation valued at approximately PHP 1 million (AUD 22,000+), completed within the six-month construction program.
- Coordinated the daily activities of 10-15 workers, communicated work priorities and monitored progress to support safe and efficient site operations.
- Reviewed structural and architectural drawings and checked work against project requirements, helping minimise errors and rework.
- Conducted site inspections, safety checks and quality monitoring, escalating construction issues where clarification or corrective action was required.

- Communicated with clients and project stakeholders and maintained clear progress updates throughout delivery.

Field Engineer

Grand Travaux, Philippines | September 2019 - February 2020

- Supported residential subdivision finishing works valued at approximately PHP 1.2 million (AUD 27,000+), delivered within a three-month construction schedule.
- Assisted with site inspections, daily construction coordination and quality checks to support compliant and timely work.
- Tracked procurement and materials and prepared site reports, material records and progress documentation for project monitoring.
- Coordinated with engineers, subcontractors and suppliers to resolve site issues and maintain continuity of work.

ADDITIONAL PROFESSIONAL EXPERIENCE

Technical Support Representative - Microsoft Software

Concentrix, Philippines | March 2020 - April 2022

- Resolved 40-60 technical cases daily using structured troubleshooting, analytical problem-solving and accurate case documentation.
- Communicated technical information clearly to customers and coordinated with internal teams to resolve complex issues efficiently.

LICENCES AND WORK ELIGIBILITY

Licences & tickets	Australian driver's licence and own reliable transport; White Card (Construction Induction); Working with Children Check
Work rights	Subclass 485 visa - full working rights in Australia until December 2027
Availability	Available for site, office and regional project work across Australia, including FIFO and project-site travel

PROFESSIONAL STRENGTHS

Clear communicator | Organised and dependable | Practical problem-solver | Strong attention to detail | Comfortable working independently and collaboratively | Open to mentoring and ongoing professional development
