The HR Team
Westera Partners Pty Ltd

Graduate Program application - Civil Engineering **Preferred office: Central Victoria**

Dear HR Team,

I am applying to your published graduate pathway for paid civil engineering work, with Central Victoria as my preferred office. I completed my Advanced Diploma of Civil Construction Design at Albright in February 2026 and my Bachelor of Science in Civil Engineering in the Philippines in April 2019.

Westera's civil work in subdivisions, infrastructure and stormwater interests me because it connects with both my studies and practical construction experience. My diploma coursework covered road geometry, earthworks, pavement systems and stormwater drainage. I prepared and reviewed drawings using AutoCAD and Civil 3D, applying Australian Standards and considering existing services and site constraints. This drafting experience is academic, and I am seeking supervised development in a professional design team.

At JustBuilt, I coordinated the daily activities of 10-15 workers on a community hall renovation, reviewed structural and architectural drawings, and conducted site inspections and safety and quality checks. At Grand Travaux, I supported residential subdivision finishing works through inspections, coordination with engineers and subcontractors, and site, material and progress records. I could bring this practical background to drawing review, documentation and construction-phase support.

Your structured mentoring programme appeals to me. I would welcome discussion of how my overseas degree and experience fit your graduate pathway and its professional accreditation requirements. I would also need to develop skills in your design systems, including 12D.

I am based in Melton and open to discussing the working arrangements for your Central Victoria office. I hold a White Card, an Australian driver's licence and reliable transport, and a Working with Children Check. I have full working rights under a Subclass 485 visa until December 2027. My bachelor's and Advanced Diploma academic transcripts are attached.

Thank you for considering my application. I would welcome the opportunity to discuss suitable graduate opportunities.

Yours sincerely,
Marc Darenz Masarate
